

Kellstrom Defense Aerospace, Inc.

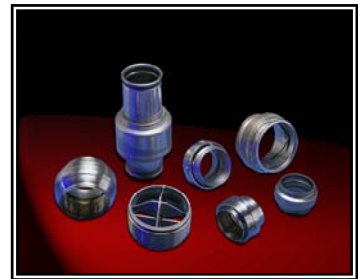

Arrowhead Products is a leader in the Aerospace Industry, designing, manufacturing, testing and delivering the best in metallic and non-metallic parts. Product offerings from Arrowhead include QEC Ducts, Compensators, Joints and Flex Ducts, High-Pressure Inconel Bleed Air Ducts, Ball Joints, Couplings, Covers, Wire Reinforced Ducts, Compensators, Metallic Bellows and Flexible Joints, Flexible Elastomeric Components, Composites, Thermal Insulation, and Space Vehicle Propulsion Ducting

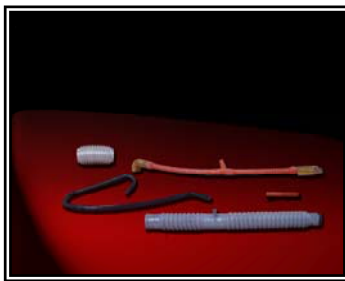

Ducting

Elastomeric Parts

Flex Joints

Small Hoses

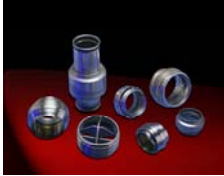

Thermal Insulation

Kellstrom Defense Aerospace Inc., is the *exclusive* distributor of Arrowhead Products to the Global Defense Market.

Kellstrom Defense Aerospace, Inc.

Ducting

Flexible and rigid metal ducts for aircraft pneumatic ducting systems manufactured from Cres, Nickel Alloys, and Titanium.

Elastomeric Parts

Aircraft components fabricated from molded elastomers, elastomeric coated fabrics, and resin impregnated fabrics.

Flex Joint

Flexible Joints for aircraft pneumatic ducting systems including internal and external restrained universal angulating joints and pressure balanced compensators.

Small Hoses

Helically-Wound wire reinforced flexible ducting including traditional and ultra-light weight construction.

Thermal Insulation

Integral and removable insulation systems for aircraft ducting, valves, couplings and flex joints as well as fire shielding blankets and bulkhead seals
